

BEST 4!MAGE

MAKES YOUR STORE WORK BETTER FOR YOU!

1. Installation of the extension

Please make sure you've downloaded extension package compliant with your Magento version. The compliance information is stated in the package filename. Once you've downloaded and unzipped the archive, please proceed with the following steps:

1. Extension has been bought on Marketplace

Then please use the official Magento User Guide to install the package.

2. Extension has been bought on Best4Mage.com and you have the package

A. Upload Files to your Magento 2 Installation

Upload the contents of the module package to the Magento root folder. This will not overwrite the existing Magento folders or files, only the new contents will be added.

In this case upload the folder(s)
/app to the root of your Magento Installation.

B. Installation of the extension

Open command line in folder root of Magento 2 and run commands via ssh using putty or others

```
php bin/magento setup:upgrade
```

After this has been done please go into your Magento 2 Backend and refresh all caches.

After this when you go to Stores->Configuration. There you should see the TAB Best4Mage Extensions and your newly installed Best4Mage Defer Javascript extension.

3. Uninstallation of the extension

Open command line in folder root of Magento 2 and run commands via ssh using putty or others
module:uninstall -r Best4Mage_DeferJS

2. Activating and using the extension

General Options

Enabled <small>[store view]</small>	Yes	▼
